### Through January 21

Taking photographs. That's so not punk rock. The folks at Holden Street Gallery, however, beg to differ. The gallery space on Smith Hill (formerly known as the Carriage House Gallery) is hosting *Punk Retrospective*, a fascinating collection of photographs of some of punk's most seminal artists, all taken by local photographer Richard McCaffrey. Richard gives you backstage access into his personal collection of photos taken for *Rolling Stone*, *Cream*, and other music mags, including performance shots of punk rock legends like The Ramones, The Clash, The Sex Pistols, and many more. For a blast into punk's past, call 751-4066 or see [www.carriagehousegallery.com](http://www.carriagehousegallery.com).
